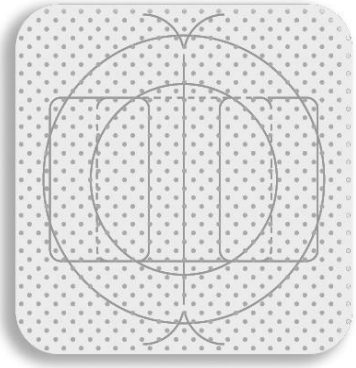
Perma-Patch

Large Drywall Patch



DESCRIPTION
- Measures 8” x 8”, .024” thick
- Manufactured from a patented PVC fiber composite material
- Will not fuzz-up during sanding
- Imprinted with standard design patterns for easy use
- Designed for door knob damage, electrical receptacles, ceiling can lights and drywall mis-cuts

ADVANTAGES
- Makes receptacle, ceiling and can light relocation easy
- Second coat of compound can be applied immediately – very light skim coat to finish
- Easily installs using standard drywall compounds
- Very fast, extremely strong
- Waterproof, rustproof

LIMITATIONS
- Not for use with solvents or solvent-based paints that could degrade the adhesive.
- Maintain 55°F (13°C) minimum temperature within the building during and after installation.

PACKAGING
- Available in 50 cards of 2 (PP-2PK), 10 bags of 10 (PP-100) and 50 bags of 10 (PP-500)

DIRECTIONS

To apply, lightly sand area to be repaired. Apply drywall compound 1/8” to 1/4" thick directly to back of patch. Place patch over center of repair and wipe down flat to wall using joint knife. Immediately skim-coat patch and let dry. Compound that remains on backside of Outlet-Patch makes patch very rigid in the damaged area. Apply second coat, let dry, and sand.

REPAIRS OVER PAINTED SURFACES. Strait-Flex recommends the use of Strait-Flex Super-Bond or latex paint, mixed with all purpose joint compound, for enhanced bonding strength.

WARRANTY

Strait-Flex tapes are backed by a three year warranty. When applied to a sound structure, built on a permanent foundation using recommended application techniques, we warrant that these products will not edge-crack for a period of three years from the date of purchase. Strait-Flex International, Inc will match any manufacturer’s warranty on a similar product. Contact Strait-Flex International, Inc for complete details.

STORAGE

Store in a dry place protected from moisture
